- To get a Workspace i'd
  Url - https://app.asana.com/api/1.0/workspaces
  Our workspaceid - 1201799158627325

- To get users id's and user names in a workspace(after getting workspace gid)
  Url - https://app.asana.com/api/1.0/workspaces/1201799158627325/users

- To get Tasks , Due_date , Task_status from Asana
  Url -
  https://app.asana.com/api/1.0/projects/1201799160566629/tasks?opt_fields=assignee,due_on,name

STEPS

- First, get the workspace I'd of a team using workspace id API

- Authenticate the API

- Collect the workspace I'd from the response.

- Using the workspace I'd and
  "https://app.asana.com/api/1.0/workspaces/1201799158627325/users?opt_fields=email,name" URL get names and emails of members

- Get the project id using "https://app.asana.com/api/1.0/projects?opt_fields=team"

- Store the project I'd from the response.

- Using the project I'd get the tasks assigned, due_date, user id from the
  "https://app.asana.com/api/1.0/projects/1201799160566629/tasks?opt_fields=assignee,due_on,name,emails" API.
